*IJTP* provides a forum for scholars and policy makers to exchange views and ideas at an international level on key issues that shape the growth of today’s tourism industry. *IJTP* takes the view that tourism activity takes place within a socio-cultural, political, economic and environmental context. Therefore, groups involved with tourism need to be sensitive to emerging issues which may affect the industry and future policy-making.

2017: *Journal of Internet Social Networking and Virtual Communities* (International).
The *Journal of Internet Social Networking and Virtual Communities* (JISNVC) is an international online peer reviewed journal that targets the businesses emerging from or cultivated by digital social networking communities. The Journal welcomes contribution in theory, simulation, analysis, case study, and experimental projects. developed by academia, practitioners, and educators worldwide to better understand the newly evolving business inspired by digital social technologies developed by academia, practitioners, and educators worldwide.
